AtmO²sphere

Presentation

Let yourself be tempted by an exceptional and totally unique performance in France! Giant bubbles of 7 metres in diameter, taking our artists into the air... These transparent spheres, looking like light and enchanting soap bubbles, are the spectacular 100% visual touch of your event.

Thanks to these majestic bubbles, we offer you a breath-taking performance that integrates the spirit of the circus & a bewitching musical universe, in order to bring a touch of spectacular and incredible to your event.

Aboard our atmO²sphere, various artists can be proposed to you: circus artists or live musicians... Our aerial acrobats will rise in the air and realize their performances in weightlessness, taking you in their magical universe for a totally unique show!

The performances of our artists can also be realized on water for an even more breath-taking imagery...

We can install our bubbles on your swimming pool or your private beach to offer our aerial performance on your aquatic surface! The reflection of bubbles on the water will sublimate the show...

AtmO²sphere shows can be performed in the daytime or by night.

By nightfall, a specific lighting will be proposed to highlight our artists and thus sublimate the performance in order to make it become unforgettable. It is a magnificent aerial ballet that your guests will attend: a show that will sparkle in the eyes of all your guests...

There also is a possibility of adding projections, smoke games, bubble machine, throws of petals, for an even more aesthetic and spectacular rendering.
